

Aug 21 1765

The Granby. High St. Newport
Bristol in England

My darling daughter

I will want to hear again from my aunt
to know how she is getting on, what & how she
is doing. & how the world goes with her generally:

& I must send off a note to day or to morrow.

My dear daughter for all your goodness &
kindness to me - but you must not do it - at

any fatigue to yourself - if you will sit

& write on the time you would be to

I will forgive my letter. I know you

will forgive it & I do hope you will

show your letter of the 15th & 18th.

I think you are foolish to attend

theater or sights seeing or shopping in

which you are at Versailles. Do you know

I should think it would be a good thing for

you to have baby with nurse. How your sister

& mother are at Versailles - & come into Paris

for a walk & do your dress making and

filling & shopping comfortably. You know

your dear baby will be well looked out for. & then

the nurse can come in with you in the

father to see you - & you can see out to see

803

him - if there is a need, & thus your work would
be accomplished in a less distracting way.
I want you to get your work done & off your
hands - before I can get to you. The air of the middle
seems to be so good for both, that it is a pity to
stay here in to Paris. It will not be much to
leave here for a few days, while you know how
well taken care of. You must have your
little yourself too dependent upon him - or he
will be your chance will become too dear.

There should happen to him. My
days & see how it works. You can keep
me up our while you are in Paris.
only in the way of a suggestion. No one
unless they are on the spot. I was quite

pleas'd at the account you gave me of your days
work. I don't wonder there were some threads & patches
made in the party:

What you tell me of Water is what our pts. & I expect
from her to get her - She is getting the sun to dryment of

have talk - as she has. To know whom to know
she can talk. She knew that coming from Rome &
nearly when all sorts of things were going on that
I was most anxious to hear about & I had of
myself the trouble to write me on words of
them she fills four pages with the most awful
rubbish that could perhaps interest people with
no brain - but which warms me with its utter
selfishness. I am heartily tired of the system.
But you want to know something of my day
since I wrote to you - on Friday I went down to
Calcutta to see the Saunt. Oh such a loud
& beautifully interesting old house. The
one stood in the very room - when
now - now was brought to be examined by the
then lived in that house. before he
for trial at the residence where he was
& executed: a fine old mansion - where
people live so charmingly. How nice would my
to be kept by there. He has sold two of his horses to the
of George Donibwell. & I don't know whether I shall
do anything with him - about a very fine bay
man he has. Horses are generally an objection
in Rome. & yet they brought out one further
ship of the horse last year. & generally they
have so much more endurance than horses
of a gentleman riding. They are not dangerous
breeds at the dangerous

time - the spring of the year - we are stopping
hunting - the 15th of April stops in. There is a very
splendid mare - bay with black points - a fine
rate price. my temperate - which will be
good thing for her who don't know much
about hunting. I mean in the way of judge
- hunt as to leaping - what her horse will be
- what the ground will bear under him
an excellent horse - like I can for instance
let himself to death - under a hand not
accustomed to hunting than I see. & the

herald horse is the very thing. all
7. Smith's hunters are high price
mine as. (Gault has a pony which
50 guineas for =) but I believe by the

the group would be well coming to be
as that Gault's horse is well known
to good - I shall keep my eyes open - I hear
from Berlin that it will cost me 14 to send
a horse to Marsalle. Then if Giuseppe comes
one from Rome to meet him - it would cost
much more. I have not heard anything of
Mrs. Rodicks sending out a horse. if I do
will be in my mind - but I have an idea
whether it would not be cheaper for her to send
to receive the horse when he is ready to go to Rome

so that they may be put in condition against
you for them. I did not get from me I can
say any of that sort made which you got for
Lush - will you please send me the address
in Kona - I will write myself.
How good by god that you my darling: you will
find that reunion of what I wrote you. I
wrote to Richard with his name - a Register
to him he & afterward the Professor & I
family were third class. I will see that
you will be near town. The
Kona keeps an omnibus for the road in
of backward & forward in to take of Paris.
I think you would like it - it had a house
with some thing like Paris - in the life I
got the statue & some thing about Montmartre
but you will learn later better than being in the
city for baby's sake. - Darling, Mrs. Parker has
written me such a nice letter she will be in
Paris by September. 43. Rue de l'Université.
Faubourg St. Germain. I wish you would get
see her. for my sake - I take baby - she will
be so pleased to see him. Tell Mrs. Parker
is a dear dear old lady - who I am afraid

is dying my feet. Do you see her dear &
if you have apartments in town. Let her know
soon to come & see you. - I think hunting
ton might help you to an apartment which
would not be dear! - And now God be good
bless you - Grandmother & Auntie & I
send you all kisses, very
sweet & loving & am your fondly devoted
Auntie.

Aug. 23/65

Dear Mrs. Ashman
When will your nephew come & spend
a few days with me for part of shooting.
I do not know when he is staying at present
& would write to him direct. The best of the
sport is of course at the opening of the season
Sept 1st - I shall be glad to see him on the
31st of August if he can come. - I am engaged
on various odd days in Sep^r before I should
occur during Mrs C's stay. I hope he will
excuse my temporary absence - He seems not
to expect grand shooting & heavy bags - but
