

CROW, W.
1871, MAY 27

St Louis
May 27. 1871
Saturday

My dear Emma

I got home
Thursday night at 10.
having had a delightful
trip far beyond my
expectation much of
my description I must
omit here I see you
or Superstition are
deficient to express
the view I have of
the Country - You mother
& mine are well
but the weather is
very warm & to go
it takes the starch
out of us all. Very
fast, especially do
I feel it coming from
the bracing air of
the Rocky Mountains

2999

Not say as much to
him there I wish to
do what will bring for

3000

a room in. I hear
Mr. Whittaker is better
but it is not heard a word
of John - I suppose you
will hear from him

3001

where I was 10500 feet
high & the bracing air
of the Plains 376500
feet high - So we
shall get away on some
or we can perhaps do
the low dry June &
of Minnie is very
interesting we should
stop at her sister's
one day in Lancaster
& we may do so if
convenient - arriving in
N.Y. about 9 or 10 o'clock
where we may stay
till Samuel Schoore
is out -

Nothing about Ned later
than your letter - Mr
M. Nair was in yesterday
to ask about him, his
latest acct was a
week old - He said
the mill was not doing
quite so well as he ^{thought} _{short}

I note what you say
about way more than of his
Care till I come on &
give me your conclusion
as to what is best - also
I am anxious about
Celine's health - what
is best for her? no
She must have a change
I suppose I say I
don't see why she
can go to Malvern - have
will in view of the
Claims at home still
She must have a
Change to make an
effort to get her
System in better
State - How can it be
done & what is the
best plan? You need
not say as much to
her till I wish to
do what will bring her
a room in a house

Mr. Whittaker is better
but don't hear a word
of John - I suppose you
need know how

3000

3001

about in some way -
The other other
responsibility which
are to be thought of
them are the two
boy & his husband too
Have all these in
your mind as well
as Galilee, & we
will talk them over
fully when we meet
I have gathered no
local news as yet - this
am. met Mrs Shupry in
market who told me
Hatchcock was due in
San Francisco 13th. Joe
& Dwight father was
in York 12 June that
hot weather was cause
a great many to be
cooking eastward -
give our love to all
Kissy to the boys -

^{John}
Will Carlins I have no
boy to go on the "ju
gee" now & have only
Dolly to play with
Dolly Schobels me in
Italian & french - I have
such pretty ponies
in the mountains &
thought of them if
they were living in the
County where they
could keep them -
You will have him
to write me or meet
this please say what
part of the house at
west winter we
ought to ask for
a room in, I hear
Mr. Whittaker is better
but don't hear a word
of John - I suppose you
3001 & Ned Ann Sew him

Mr. Phillips giving a great
entertainment on Monday 4
to go to the on his 30th the
anniversary of residence

I shall perhaps go
when Wilson was here but
she sent to your mother
for your address &
did not send card
I think it was most
very civil to your mother
had I hear a hour
house - good bye

Yrs truly W. Croswell

Just as I close
there comes in a
letter in your hand
writing to Ned,
post marked 24th - So
I think we shall see
him soon -
