

1866, MAY 13

Rome May 13 - 1866

Dear Mr. G. No anniversary of your poor dear mother's
burial - which will pass without a word from me to you.
Some things I shall not much like to say. These are times
- rich in full of sad & tender memories. I hope
you do not forget them. -
Your letter of the 11th April - reached me in due time. I was
to hear that you had lost money in your business during
the last six months - but you had had so much good luck
in your life. That you were not repaid as the expected
as the war had to be on. Exchange will drop soon - & your
increased income will come through that - if you through
a large amount invested. - I will go more through
ly into your expenditures - when I have a little more
time. Just now, I will only say - that I think you may
do without a carriage perfectly well. My father is full
of horse & carriages & you will have no need, that
Carriage will be met there - unless it is a saddle
horse - which you may perhaps be able to afford. at
the price of a month. - Even a horse to be a carriage
& horse with his money in father's hand at home
but I will stop here for this time. - I shall be

your room so arranged - as to find you are
entirely separate apartments - which will
be more what Mr. Brown & Susan would like &
what may be better for all - in the long run!
I have no doubt that you will be able to
make all ends meet - in your life in Rouen
better even than you could in America - if you
were out of business - & I don't know what
business you could be in - that our careful
step for your interest out of Mr. Brown's house -
I wish Mr. T. would have a branch house each
a little later that you could print - but I must
talk with him later -
Susan wants you much Charles's speech the
is a baby - & his grand mother - ditto - more kind.
you may have sent the receipt to him, as
much as though it had been a bill of lading.
- I look with anxiety for the next letter
on account - now to you - I am your
fond & loving - Auntie
I want to know very much if Mr. Brown
