Box 41

Dear Mr. Fields - Will you get  
the accompanying article  
inserted in the "Manuscript"  
as soon as possible. -

I send the first story  
for the juvenile. The  
others will not be quite  
as long, but there are  
eight of them. So you can  
calculate about the size  
of the book. - I think there  
should be an illustration  
for every story - on a  
separate page - a leaf  
of light yellow paper.  
I hope you will have  
a good designer and en-  
graver, for children like  
those things done up brown.  
I should say that the

James S. Fields -

London

subject for the first  
story should be taken  
from the first page  
- the woman giving me  
the kitten - Let the de-  
signer see the page

I will send up the  
other stories soon - or  
subjects for illustration

I have a preface  
to the book which will  
take away the abruptness  
of the Commencement

Yours, with a cold  
in the head, and a bad  
pen
